

Dear Patient,

Our staff would like to welcome you to our office and to thank you for selecting us as your vision care provider. We look forward to providing exceptional service and to meet your vision care needs.

Please bring the following items listed to your appointment:

Your current eyeglasses and/or contacts

Any list of medications you are currently taking, including strength and dosage

Current insurance cards

Driver's license or other photo ID

Registration and HIPAA forms, that are included with this letter

Your appointment will take approximately 1-1/2 to 2 hours. Your eyes will be dilated (enlarging the pupils). This may temporarily cause blurred vision and sensitivity to light. Sun shields are available if needed.

Your insurance co-payment is expected at the time of your visit. Again, thank you for entrusting us with your vision care needs.

Sincerely,

Patient Services
